INSTRUCTIONS

DIESEL FUEL CLAIM FOR REFUND ON NONTAXABLE USES

GENERAL INFORMATION

If you paid diesel fuel tax on purchases of diesel fuel and if you used the tax-paid fuel for nontaxable purposes, you may obtain a tax refund by filing (BOE-770-DU). Do not use this form if you are claiming a tax refund for tax you paid on diesel fuel you used for farming purposes or in an exempt bus operation. Refunds of the tax for these types of uses can only be claimed from the BOE by your fuel supplier. You must seek reimbursement of the tax you paid from your supplier.

The following fuel uses are not subject to diesel fuel tax:

- Diesel fuel used in a vessel. A vessel is a boat, ship, barge, or other watercraft.
- Diesel fuel used for purposes other than operating motor vehicles upon the public highways of the state.
- Diesel fuel used to operate a power take-off (PTO) device. PTO generally is described as "an accessory mounted onto a transmission allowing power to be transferred outside the transmission shaft or driveline. The accessory will usually consist of a small gearbox with an external shaft, or a short shaft with a driveline yoke assembly for attaching an external driveline."
- Diesel fuel used in vehicles operated on highways under the jurisdiction of the U.S. Department of Agriculture. To qualify for a refund, the user must have paid for or contributed to the construction or maintenance of the highway.
- Other nontaxable uses may include diesel fuel used in reefer units with separate fuel tanks or in generators. It may also include fuels used in a motor vehicle owned and operated by a public agency or political subdivision of the state; for example, a county, city and county, city, district, on highways constructed and maintained by the United States, or by any department or agency of the United States, within a military reservation within California.

Note: Effective July 1, 2011, the diesel fuel tax rate may be adjusted annually. Due to this annual adjustment, you may have transactions at several different rates. The effective date of any future rate change will be July 1.

If you are interested in filing your *Diesel Fuel Claim For Refund On Nontaxable Uses* electronically with the BOE, please visit our website at www.boe.ca.gov/elecsrv/efiling/efilemotorfuels.htm for more information.

In addition to a schedule code to describe the activity covered, you must select a product code for the type of product reported and enter the product code on the schedule. For each schedule code there can be only one product code reported per page for the period. You will need to make a copy of the blank schedules included with this claim for each schedule and product code combination you will be using. For each schedule, complete the information in boxes (c) and (d) in the header of the schedule. Enter in (c) the schedule code from the Diesel Fuel Schedule Codes list and, in (d), the product code from the Diesel Fuel Product Codes description table. The BOE may request this supporting documentation be provided. Examples of supporting documentation include, but are not limited to, the following:

- Calculation worksheets showing how the gallons consumed in PTO equipment were determined and the basis for the PTO rate(s) used to arrive at the claimed PTO gallons.
- Calculation worksheets showing how the gallons consumed off-highway were determined for vehicles that are driven both on-highway and off-highway. Miles driven on-road and off-road, and miles per gallon (mpg) information should be maintained if these factors were used to arrive at the claimed off-highway gallons. Odometer readings should also be recorded.
- Tank gauge or meter readings of diesel fuel left in storage tanks on the last day of the reporting period (end of the month, quarter, or year).
